BOAT POLICY

1. A valid "C" card must be produced in order to dive.
2. For all dives over 100' in depth divers must produce a logbook showing evidence of at least five (5) dives in the Northeastern United States (or equivalent location) to a depth of at least 60' within the last 12 months. The only exception to this policy is a diver diving with an instructor.
3. A buddy system will be utilized. (Your buddy is your communication link to the surface.)
4. All divers must have the following equipment in order to dive:
 - A. **BASIC EQUIPMENT**
 - a) Bottom timer
 - b) Depth gauge
 - c) Submersible pressure gauge
 - d) BCD
 - B. **PENETRATION & DECOMPRESSION**
 - a) Ascent line & lift bag
(Drift hangs are dangerous! These items are required in the event a diver can't find the anchor line. This equipment allows the diver a means by which to make a controlled ascent without drifting away from the immediate area)
 - b) Alternate air source
 - c) Penetration line
5. Smoking will be allowed only in outdoor areas.
6. The following items will not be allowed aboard the Eagle's Nest:
 - A. Illegal substances (drugs; i.e. cocaine, marijuana, etc.)
 - B. Alcoholic beverages
 - C. Spears and spearguns
7. All lobsters must be taken by hand. No gigs, or gaffs will be allowed aboard. All lobsters will be measured and checked for eggs. Lobsters not measuring up to legal size by the "Eagle's Nest Gauge", and those bearing eggs, will be returned to the sea.
8. All divers must be aboard with all of their equipment **30 minutes** prior to departure time. Every diver arriving for the first time each season must arrive at least **1 hour** prior to departure time in order to complete release forms and receive a boat safety briefing. **Late arrivals will not be allowed to board. This policy was implemented as a courtesy to those who arrive on time!**
 No exceptions!

9. The Captain reserves the right to change destination at his discretion if he deems the primary dive site unsafe due to weather, sea conditions, or other boats at the wreck site.
10. All divers are responsible for their own personal safety once they step off the Eagle's Nest and enter the water.

WE WISH TO EMPHASIZE THAT WHEN YOU PARTICIPATE IN ANY DIVING ACTIVITY FROM THE EAGLE'S NEST YOU ARE UNDER YOUR OWN CARE, CUSTODY, AND CONTROL. YOUR SAFETY IS OUR CONCERN, BUT YOUR SAFETY WHILE DIVING IS YOUR RESPONSIBILITY!
